

INSTALLATION INSTRUCTIONS

1. LAYOUT

If using one number, go straight to step 2.

Using two or more numbers:

- Place the mounting templates on a flat surface
- Line up the templates using the bottom edge as a guide
- Tape the templates together

2. MARKING

- Hold the template to the fixing surface
- Ensure the template is level and tape to the wall
- Mark each drilling hole and remove the template

Do not drill through the template.

3. DRILLING

- Using a 5mm drill bit, drill each mark to uniform depth

4. MOUNTING

- Turn the threaded rods into the numbers
- Place a spacer on each rod (optional)
- Coat ends of threaded rods with silicone caulk
- Fill holes with silicone caulk
- Secure number to the wall

Always clean with a soft cloth. Avoid abrasives.
