DOLPHIN HIGH SPEED HAND DRYER

- › Quality satin stainless steel body with all metal back plate for excellent vandal resistance
- › Very low energy usage saving 70% or more of user's energy costs
- › Infra red self adjusting sensor
- › Heater on/off switch and adjustable airflow giving the potential for even greater energy savings
- › Dries hands in only 10-12 seconds with heater and full speed – reducing CO₂ emissions drastically
- › Outlet temperature 60°C (140°F) at 25°C (77°F) ambient temperature with heater on and dryer at full speed
- › Three year limited warranty
- › IPX1 rated
- › Class I rated isolation
- › Average Reuse Rate under WEEE Directive: 72%
- › Average Recovery Rate under WEEE Directive: 95%
- › Also available in white metal, see here
- › Ska compliant product h speed with element off

HEIGHT	280 MM
WIDTH	201 MM
PROJECTION	175 MM

PLEASE NOTE: We strongly recommend that the surfaces beneath and to either side of this dryer allow regular cleaning (such as smooth cleanable paint, tile, Perspex, stainless steel etc) to prevent staining from the water blown from users hands. New generation high speed dryers such as this are designed to blow the water off the hands so consideration like this needs to be given to deal with the water deposits.
